

Press Release

Very good results for the first half of 2009

Boulogne-Billancourt, 29 September 2009. Prosodie posted exceptional results for the first half of 2009, despite the difficult economic context prevailing in all three geographic regions in which the group operates.

During the first half of 2009 the group achieved sales of €84.6 million, up 1.6% like-for-like on the same period in 2008. The French activity recorded growth of 5.2%. In Spain, with the integration of Servicom2000, the sales figures for the first half of 2009 reached €5.7 million (up 94% from 2008).

One of the factors driving the growth of the group's activities is the ever more advanced solutions that Prosodie offers its customers in order to meet their capacity and availability requirements with, in particular, the most innovative, state-of-the-art technical infrastructures on the market.

At €8.5 million, the group's current operating income marks a strong increase from 2008 figures (€5.1 million). EBITDA increased by 34%, from €10.1 million to €13.5 million. The net earnings, group share, amounted to €5.1 million.

The net cash position of the Prosodie group, which stood at €19.4 million at 31 December 2008, was €17.1 million at 30 June 2009.

Prosodie has been held by Camelia Participations since the LBO operation by its three managers together with the APAX funds in 2007, and at 30 June 2009, Prosodie had 951 employees.

For the second half of 2009, growth is expected to remain moderate due to the still fragile global economic situation. We forecast an improvement in the group's profitability and significant generation of liquidities which will allow the group to make the most of opportunities for external growth to consolidate its activity, particularly in Europe.

About Prosodie :

As a service operator offering IT and telecoms expertise, Prosodie designs and hosts multi-channel online services for remote access to information and interactive data exchanges. With many major companies benefiting from Prosodie's services, the company works in the fields of multi-channel customer relations, facilities management for critical and sensitive systems and applications, IP telephony and prepayment systems and other services for telecoms operators. With offices in France, Spain, the United States and Canada, the group achieved turnover in 2008 of €179.9 million, with an operating profit of €15.6 million, and had 958 employees at 31 December 2008. In July 2008, PROSODIE obtained an extension of its AFAQ ISO 9001 certification to cover all of its activities throughout France.
